### Teaching Grants

**The 2015 grant process has changed in order to ease the process of applying and writing a grant proposal.**

If you intend to apply for a grant, you can submit a letter of inquiry. This is an application with predetermined questions about your proposal. These applications will be reviewed, and if selected you will be invited to submit a full grant proposal.

- Projects must be creative and implemented during the school year funding is received.
- Must provide a brief evaluation of your project to be eligible for future funding
- The same project/program will only be eligible to be funded twice
- Technology can be included if it is a direct part of the learning experience for the students
- We do not fund food, routine field trips, salaries or anything ordinarily paid for through your campus budget
