

Dear Employees:

It is the Foundation's goal to collaborate with the district to ensure that students are equipped with the technological skills needed to compete in a constantly evolving global workforce and society. As the ISD has approved the new Student Device Plan that will be implemented over the next four years, we have been asked to align with this plan in our grant awards. That will mean that devices requested should be leased through the district vendor(s). They may also require a yearly licensing fee to be added to the Airwatch Device Management System. If you are submitting a request for actual devices, please consider one of the suggested devices below:

Grades PK-2

Apple iPad 5th Generation 32GB – requires additional AirWatch license – must be purchased from Apple

Grades 3-8

Dell Latitude 3189

Grades 9-12

Dell Latitude 3379

Accessories, software, and other resources to support learning through the devices will not see any changes for 2018.

Best regards,
